

ICANN requires certain domain names be reserved from registration unless fTLD is approved for their release. The details of the requirements are provided in Specification 5 to fTLD's Registry Agreement with ICANN. The following domain names are currently reserved from registration per ICANN. The domain names starting with XN-- are for Internationalized Domain Names (i.e., domain names or their variants written in scripts other than Latin). At this time, fTLD does not offer Internationalized Domain Names.
