

## **DEFINITIONS**

Applicant: An organization that requests registration of a domain name in <.TLD>.

**Common Community Name**: Words or phrases commonly used by a significant number of organizations within the banking community (e.g., citizens, firstnational, security).

**Consensus**: The decision of a majority of Advisory Council members present at a meeting provided a quorum (defined as a number more than half the total membership) exists to take such a decision.

**Forum**: The FORUM (formerly known as The National Arbitration Forum) administers Registry Operator's Registration Eligibility Dispute Resolution Policy, Reserved Names Challenge Policy and Sunrise Eligibility Dispute Resolution Policy.

**Generic Name**: A word or phrase commonly associated with goods/services in the banking community (e.g., checking(s), mortgage(s), saving(s)).

**Government Regulatory Authority:** For .BANK, defined as: Central banks and monetary authorities (e.g., those listed by the Bank for International Settlements (BIS) at their website https://www.bis.org/. For .INSURANCE, defined as: government regulators of Qualified Registrants defined in Section 3.0 of the Registrant Eligibility Policy.

**Manager**: The Registry Operator representative that will provide secretariat support to the Advisory Council.

Operating Manager: The American Bankers Association and the Bank Policy Institute.

**Panel/Panelist**: The party responsible for rendering a decision in a complaint pursuant to Registry Operator's Registration Eligibility Dispute Resolution Policy, Reserved Names Challenge Policy or Sunrise Eligibility Dispute Resolution Policy.

**Registrant**: The holder of a domain-name registration in the <.TLD>.

**Registration Eligibility Dispute Resolution Policy**: The challenge process administered by the FORUM for a domain name registration that was improperly granted/denied under fTLD Registry Services, LLC's Registrant Eligibility Policy for the <.TLD>.

**Registrar**: An entity that has a Registrar Accreditation Agreement with ICANN and has a Registry-Registrar Agreement with fTLD Registry Services, LLC for the distribution of domain names in <.TLD>.

**Registrar Accreditation Agreement**: The agreement between a Registrar and ICANN for the distribution of domain names.

**Registration Agreement**: The agreement between a Registrar and Registrant.

**Registry Agreement**: The agreement between fTLD Registry Services, LLC and ICANN for the <.TLD> Top-Level Domain.

**Registry Operator**: fTLD Registry Services, LLC.

**Registry Operator Reserved Names**: A word or phrase commonly associated with goods/services in the insurance community (e.g., auto(s), health, life).

**Registry Policy(ies)**: Policy(ies) that relate to the registration and use of domain names (e.g., acceptable use / anti-abuse, eligibility, name selection, name allocation). These Policy(ies) DO NOT include any corporate governance policies or operational practices (e.g., human resource) that are not specifically enumerated in the Registry Agreement.

**Registry-Registrar Agreement**: The agreement between a Registrar and fTLD Registry Services, LLC for the distribution of domain names in <.TLD>.

Registry Service Provider: The entity that provides Registry System functionality for Registry Operator.

**Registry System:** The system for registered names in <.TLD>.

**Reserved Names Challenge Policy**: The challenge process administered by the FORUM to request allocation of a domain name on fTLD Registry Services, LLC's reserved names list or the allocation of a reserved name to a third party.

**Standard Name**: A word or phrase that corresponds to the legal name or branding (e.g., trademark, trade name or service mark) of an organization.

Start-Date Sunrise: Domain names during this period are allocated by First-Come, First-Served.

**Sunrise Dispute Resolution Policy**: The challenge process administered by the FORUM for a domain name registration that was improperly granted/denied during the Sunrise period.

.TLD: Includes .BANK and .INSURANCE.

**Trademark Clearinghouse (TMCH)**: The database of qualified trademarks that entitles a rights holder to a series of Rights Protection Mechanisms.
